Test and Software Developer (m/f/d)

40 hours/week
Location: Vienna
Department: Research & Development

We are ...

A great bunch of audio enthusiasts with the strong belief on "Great sound is for everyone".
At LEWITT, we continuously innovate to make it easy for anyone to express themselves with exceptional sound. Whether at home, on stage, or in the studio, beginner or professional.

Working at LEWITT means working in a respectful and agile environment that allows you to grow. We are an international and diverse team representing more than 20 nationalities in a modern office space with a rooftop panorama terrace and an in-house recording/content creation studio.
Everything we do, we do to the fullest. Make yourself heard!

You are ...

- You are enthusiastic, willing to learn and to grow with us
- You come up with new ideas, a unique point of view, and you look forward to working in a diverse and international environment
- You are a team player who puts the teams' success above personal achievements
- You value and practice transparency with honesty
- You proactively contribute to a culture of respect, constructive exchange and togetherness

This is how you can support us ...

- Design and development of a software test framework for various audio devices (microphones, audio amplifiers, streaming and wireless devices) with an embedded microcontroller
- Definition and implementation of test cases in the framework
- Implementation of the interface for the test cases in the product software
- Execution of software tests for various embedded microcontrollers
- Evaluation of collected test results and compilation of reports
- Integration of the test environment into a bug tracking tool
- Close cooperation with the Software- and Hardware-Development Teams

Your profile ...

- Relevant secondary education (e.g. HTL) or university degree
- You are very well organized and work particularly precisely
- You have a profound understanding of analog and digital circuits and extensive experience in troubleshooting
- Basic programming skills in C, C++, C# and Python
- You are an effective collaborator and team player, but you also work very independently
- English speaking proficiency
- Understanding of the Pro Audio and music market is an advantage, but not a requirement
  LEWITT headquarters in Vienna, Austria

Make yourself heard.

LEWITT headquarters in Vienna, Austria

What we offer ...

- A young, international company that is at the forefront of the market with innovative products
- A team that likes to encourage, challenge and support you
- A flat hierarchy, short communication channels and unbureaucratic cooperation
- A varied and independent work environment that allows you to develop your creative potential
- Modern office with excellent travel connections (near U3 Johnstraße/Hütteldorferstraße) and a breathtaking 360° panorama terrace
- State-of-the art hardware
- Employee discounts on LEWITT products
- German language classes

Your performance is remunerated with a market-compliant salary of minimum EUR 2.800,00 (full-time 40h per week), which will be adjusted according to your experience and qualifications. The exact number of working hours is also negotiable. If you would like to become part of our team, please send your application by email to **jobs@lewitt-audio.com** for the attention of Robert Mölzer. We look forward to your message!
